AUTHORITY

# Scoping Period Comment Form

**Thank you for attending today's meeting.** The purpose of the scoping process is to identify public and agency concerns, focus on the environmental documents, and define the issues that will be examined in the Project-Level Environmental Impact Reports/Environmental Impact Statements (EIR/EISs). The scoping process also helps to identify project impacts, alternatives, mitigation measures, and environmental subject areas deserving attention.

Name (please print): Les Junoy City: SANTA CLARITA State: CA Zip: 91340  
 Title (if applicable): \_\_\_\_\_ Phone: 661-268-0464 Fax: \_\_\_\_\_  
 Organization/Business (if applicable): \_\_\_\_\_ E-mail: \_\_\_\_\_  
 Address: 3011 Briggs Rd Meeting Date: \_\_\_\_\_ Meeting Location: \_\_\_\_\_

☒ Yes, I would like to be added to your mailing list to receive newsletters, information mailings, and meeting notices.

Please circle the corridor(s) that pertain to you: (Los Angeles - Orange County) (Los Angeles - Palmdale)

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

*What about the Three Spin Stickleback Fish?*

3. What other issues would you like the Project-Level EIR/EIS to address?

4. Additional Comments:

*What will happen for access to Solidad Cyn. if high speed rail goes through Solidad Cyn? This would be from the North side of the tracks?*

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on **April 24, 2007**.

 Title (if applicable): Engineering Consultant Phone: 323 462-5500 Fax: \_\_\_\_\_  
 Organization/Business (if applicable): \_\_\_\_\_ E-mail: \_\_\_\_\_  
 Address: 2563 Dearborn Dr. Meeting Date: Apr. 5, '07 Meeting Location: LACMTA Bd. Rm.  
~~continued on~~  
☒ Yes, I would like to be added to your mailing list to receive newsletters, information mailings, and meeting notices.

Please circle the corridor(s) that pertain to you: (Los Angeles - Orange County) (Los Angeles - Palmdale)

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

Because of the residential density along this portion of the route, major attention will be needed to reduce the sound level emitted by passing high speed trains. This may require erecting ~~erecting~~ side barriers a few feet high adjacent to the tracks on their supporting structure.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

Find a way to convince land developers and local officials in the Antelope Valley that a detour of high speed rail through Palmdale is not in the best interests of most passengers, who travel between the San Fernando Valley, Bakersfield and beyond. The Palmdale Airport can be served by Metrolink with a transfer provided to the high speed line at Sylmar.

3. What other issues would you like the Project-Level EIR/EIS to address?

Why can the Swiss build exceptionally long tunnels through the Alps, but we cannot do the same through the Tehachapi Mtns?

4. Additional Comments:

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on **April 27, 2007**.

 Title (if applicable): OWNER Phone: (818) 248-1793 Fax: SAME  
 Organization/Business (if applicable): DICK SEELEY GARDENING E-mail: dick.seeley@juno.com  
 Address: 3924 EL CAMINITO Meeting Date: 4-4-07 Meeting Location: GLENDALE LIBRARY

☐ Yes, I would like to be added to your mailing list to receive newsletters, information mailings, and meeting notices.

☒ **ALREADY ADDED!**

Please circle the corridor(s) that pertain to you: (Los Angeles - Orange County) (Los Angeles - Palmdale)

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

*I don't really see any negative environmental problems with high speed rail except probably some noise and ground vibration. Since trains, high speed + otherwise, take much less land in which to operate than freeways or airports, they are a definite plus environmentally in my opinion!*

3. What other issues would you like the Project-Level EIR/EIS to address?

*I think you should be sure to fully address the positive aspects of high speed rail.  
 I would like to see some emphasis on the ability to link high speed rail to urban city light rail, etc!*

4. Additional Comments:

*I would like to see you promote a solid benefit analysis, financially and otherwise that rail will bring to this state and other states over time. We know that the cost is high & growing but will the future benefits far outweigh the eventual cost of the entire project.  
 I would also like to know the Governor's position on this project as well as those in the legislature who don't like it!*

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on **April 24, 2007**.

Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

I'm a resident in Soledad Cyn. The realignment of the tracts would greatly impact homeowners. It would also impact Santa Clara River, the last natural flowing river in L.A. Co.

3. What other issues would you like the Project-Level EIR/EIS to address?

The property owners in the beautiful Canyon don't want their properties used for h.r. tracts and, if the tracts are straightened to accommodate a train traveling at 220 mph almost all the homes would have to be destroyed. Even a wild animal preserve (Shambala) and 6 privately owned recreational vehicle parks would be impacted.

4. Additional Comments:

Also Soledad Cyn is a wildlife corridor to the Santa Clara River.

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on April 24, 2007.

## Formulario de Comentarios del Período de Investigación

**Gracias por asistir a la junta de hoy.** El propósito del proceso de investigación es identificar las inquietudes del público y de agencias, concentrarse en los documentos ambientales y definir los asuntos que serán examinados en los Informes del Impacto Ambiental/Declaraciones del Impacto Ambiental (EIR/EIS) a Nivel de Proyecto. El proceso de investigación también ayuda a identificar impactos, alternativas, medidas de mitigación y áreas ambientales objeto del proyecto que merecen atención.

Nombre (por favor en letra de molde): \_\_\_\_\_ Ciudad: \_\_\_\_\_ Estado: \_\_\_\_\_ Código: \_\_\_\_\_

Puesto (si es aplicable): \_\_\_\_\_ Teléfono: \_\_\_\_\_ Fax: \_\_\_\_\_

Organización/Negocio (si es aplicable): \_\_\_\_\_ Correo Electrónico: \_\_\_\_\_

Domicilio: \_\_\_\_\_ Fecha de la junta: \_\_\_\_\_ Lugar de la junta: \_\_\_\_\_

☐ Sí, quisiera ser añadido a su lista de correspondencia para recibir boletines de noticias, correspondencia de información y avisos de juntas.

Por favor circunde el corredor(es) que sea pertinente a usted: (Los Angeles - Condado de Orange) (Los Angeles - Palmdale)

**Por favor responda a las siguientes preguntas con tanto detalle como sea posible, basado en la presentación de hoy y cualesquiera inquietudes o preguntas no respondidas que usted pueda tener acerca de los proyectos propuestos y EIR/EIS a Nivel de Proyecto.**

1. Por favor nombre los asuntos ambientales de los cuales tiene inquietudes y quisiera ver abordados en los EIR/EIS a Nivel de Proyecto de Los Angeles (Estación Union) al Condado de Orange (Centro Inter modal de Transportes Regionales de Anaheim [ARTIC]). Por favor sea lo más específico como le sea posible.

2. Por favor nombre los asuntos ambientales de los cuales tiene inquietudes y quisiera ver abordados en los EIR/EIS a Nivel de Proyecto de Los Angeles (Estación Union) a Palmdale. Por favor sea lo más específico como le sea posible.

3. ¿Qué otros asuntos quisiera que aborden los EIR/EIS a Nivel de Proyecto?

4. Comentarios Adicionales:

I have had cougar, bob cat, deer, bear on my property and also racoon, coyote etc.

Gracias por su participación en este proceso importante. Por favor deje su formulario en la mesa de registro o envíenoslo por correo tan pronto como sea posible para cerciorarnos que sus comentarios se incluyan en nuestros estudios. El periodo de investigación se cierra el 24 de abril de 2007.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

3. What other issues would you like the Project-Level EIR/EIS to address?

THE PACIFIC CREST TRAIL CROSSES THE TRACKS AT ONE POINT. WILL IT BE AFFECTED?

4. Additional Comments:

MY HOME IS NORTH OF THE TRACKS. FOR 29 YEARS I'VE CROSSED THE RR TRACKS TO REACH SOLEDAD CYN. RD.  
WHAT WILL BE DONE TO ASSURE MY ACCESS?  
DOZENS OF HOMES CROSS THE TRACKS BETWEEN SANTA CLARITA AND ACTON.

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on **April 24, 2007**.

## Rachel Weninger

---

**From:** lequewood@netzero.net  
**Sent:** Sunday, April 15, 2007 9:13 AM  
**To:** Comments  
**Subject:** Palmdale-Los Angeles leg

I'd rather present this in-person but email will suffice for now.

I fully support the HSR and have several ideas that could help it become reality.

The first is the HSR needs a new route to LA. The proposed route takes it through LA's primary north-south access corridor. This being the area where SR 14 meets I-5. The freeway collapsed here in the 1971 Sylmar quake and again during the Northridge quake. This bottleneck also brings LA its water from the Owens Valley via aqueduct, and is the primary north-south high voltage power supply in the States power grid.

For contingency purposes of having a second path in and out of LA, I propose the HSR route be a straight line from Palmdale to LA. Tunnel through the mountain. This would also enable higher speeds and less travel time (and less track to maintain). The HSR would also be away from the general public, thus reducing the chance of incidents on the rails.

Second and final point is getting help with the funding. I suggest getting LA World Airports (LAWA) on the side of HSR. LAWA owns 18,000 acres of land just east of Palmdale. There was once a plan to relocate LAX to the desert. I can see that plan being revived if HSR became reality. The funding for a new mega airport and HSR could come from the sale of LAX real estate.

If these 2 ideas were implemented, Palmdale would become not only the gateway to the world, but also the entry point to the entire State via HSR.

Ian Hall

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

This route travels through highly congested areas,  
How will impacts on businesses be treated so as  
to avoid the types of losses suffered in  
Metro construction under Hollywood Blvd?

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

Will this service operate frequently enough  
and at low enough fares to compete  
with Metrolink service to L.A.?

3. What other issues would you like the Project-Level EIR/EIS to address?

What effects of The Central Valley heat  
and other extreme weather conditions  
on the system?

4. Additional Comments:

I am concerned that Southwest Airlines  
may approach this project as it did  
the Texas project.

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

N/A  
 CONCERN = \*Taylor Yard\*  
 soccer field  
 Local Recreation for Young Kids & teenagers

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

\*TAYLOR YARD\*  
 soccer fields  
 Local Recreation for Young Kids & teenagers

3. What other issues would you like the Project-Level EIR/EIS to address?

Basically, what we are here to ask for is an alternative route. Another OPTION for ~~also~~ the High-Speed Rail, instead of TAYLOR PARK/TAYLOR YARD. ~~Our~~ New soccer fields are placed there hopefully your words remain true & HELP us teenagers keep our fields which are going to keep us safe & out of streets. There are many Benefits we understand but it affects us kids and our fields.

4. Additional Comments:

"Mr. Brew we appreciate your words but please find another Alternative for TAYLOR YARD!"

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on April 27, 2007.

# Scoping Period Comment Form

**Thank you for attending today's meeting.** The purpose of the scoping process is to identify public and agency concerns, focus on the environmental documents, and define the issues that will be examined in the Project-Level Environmental Impact Reports/Environmental Impact Statements (EIR/EISs). The scoping process also helps to identify project impacts, alternatives, mitigation measures, and environmental subject areas deserving attention.

Name (please print): Tony Jusay City: Los Angeles State: CA Zip: 90012  
 Title (if applicable): Transportation Planner Phone: \_\_\_\_\_ Fax: \_\_\_\_\_  
 Organization/Business (if applicable): METRO E-mail: Jusaya@metro.net  
 Address: \_\_\_\_\_ Meeting Date: 4/5/07 Meeting Location: MIA Boardroom

☐ Yes, I would like to be added to your mailing list to receive newsletters, information mailings, and meeting notices.

Please circle the corridor(s) that pertain to you: (Los Angeles - Orange County) (Los Angeles - Palmdale)

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

I am concerned ~~with~~ with parking for these stations. I don't believe in supporting huge <sup>CAR</sup> parking lots for the proposed station if so. Provide parking for bicycles and non-motorized travel as a mitigation measure.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

Limit the amount of car parking for these stations. Encourage non-motorized travel to and from station with parking for these modes (bicycles)

3. What other issues would you like the Project-Level EIR/EIS to address?

include available space inside passenger cars for bicycle parking and storage.

4. Additional Comments:

Areas that will undergo electrification should be tied in with solar energy stations. Incorporate renewable energy solutions for project. Incorporate sustainable practices for design, construction and operation.

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on April 27, 2007.

Affects

**Please complete the following questions in as much detail as possible, based on today's presentation and any concerns or unanswered questions that you may have about the proposed projects and Project-Level EIR/EISs.**

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

N/A

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

This project is affecting our soccer field Taylor yard because that's where my team practice and sometimes have soccer games.

3. What other issues would you like the Project-Level EIR/EIS to address? I hate about the project EIR/EIS because it want to take over soccer parks. This project is going to affect Los Angeles to Palmdale's environment.

4. Additional Comments:

I talked with Mr. Brew about now is the High Speed Rail is going to pass through our environment underground, above, or pass through our soccer field.

1. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Orange County (Anaheim Regional Transportation Intermodal Center [ARTIC]) Project-Level EIR/EIS. Please be as specific as possible.

well if they built High-speed Rail my concern would be if these trains would be affordable to the community.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

Another thing will these trains be spacious (another concern).

3. What other issues would you like the Project-Level EIR/EIS to address?

I think these trains will benefit us but it could also affect our community if they cross through parks or anything we use for our community.

4. Additional Comments:

A very important concern that I had was that one of the locations that the train was proposed to pass is my own new soccer parks. Those soccer parks are for our community.

Thank you for your participation in this important process. Please leave your form at the sign-in table or mail it to us as soon as possible in order to ensure that your comments are included in our studies. The scoping period closes on April 27, 2007.

2. Please list the environmental issues that you are concerned with and would like to see addressed in the Los Angeles (Union Station) to Palmdale Project-Level EIR/EIS. Please be as specific as possible.

— Soledad Canyon is a nice canyon. The Santa Clara River is unique. The Pacific Crest Trail crosses the canyon. The HSR should not disturb the canyon.

3. What other issues would you like the Project-Level EIR/EIS to address?

Hiking & Riding Corridors need to pass under or over the path in many places (such as PCT).  
 "Wild life Corridors" need to set up to connect the San Gabriel National Forest (two sides)

4. Additional Comments:

As an alternate an elevated pathway near Hwy 14 would work better than Soledad Canyon.

Re: Proposed alignment of the high speed rail corridor

Dear Ms Pouvahi

The Acton Town Council represents the local community in matters such as the proposed alignment of the proposed high speed rail. This transportation issue will have a profound impact upon our community. We desire to be closely consulted with so that our community of 12,000 understands and can meaningfully participate in the process.

Please find enclosed a copy of the Authorities Scoping Period Comment Form. Further we wish you consider having a presentation at one of our Council meetings.

Respectfully Yours

William B Davis, AIA

For the Acton Town Council
